COMPLIANT TECHNOLOGY

It Has Never Been This Easy

FR8Works leverages cloud technologies combined with our Tag Interface Module to eliminate the process of manually counting cars, by utilizing an automated solution that never gets sick, is always on the job, and provides real-time updates as rail cars enter or leave the yard.

- Increase Site Safety
- Automated Rail Car Reading
- Real-Time Information
- Cloud Based Interface
- Minimal Site Infrastructure
- Eliminate Auxiliary Fees
- Inventory Export

Rail Car Inventory

© 2020 - 2023 FR8Works

FR8Works captures rail car data in real-time as rail cars enter or leave the yard. Easily access your records from the FR8Works Cloud or export a CSV of your inventory to import into any supported software.

- Accurately count of the cars coming on site with the manifests generated
- Information in a timely manner – Export your inventory with a click of a button
- Track Dwell time for any rail car

Train Activity

Real-time information aggregated from across your organization saves time and money. Yard management has never been this easy.

- Rail Car ID
- Rail Car Arrival and Departure Info
- Generate Reports
- Digital Record Keeping
